

Forex buying made extremely easy!

Deltin Globus Solutions LLP, a Pune based technology company has launched a mobile app called "Currency Exchange". The app provides largest platform for buying & selling Forex across 85 cities in India and more than 150 pick-up locations, all at your fingertips! You can also select delivery to your home or office to beat the traffic! As per the company press release, Currency Exchange app is the quickest app in the market and offering best exchange rates. A user with very few clicks locks the live rate & completes the order instantly avoiding hassles to call Forex dealers. Currency Exchange app offers the best rates to the users by going through the quotations of different channel partners in real-time and provides best exchange rate that is available in that area.

All transactions using Currency Exchange are secure and comply with RBI guidelines. Customers can pay using options such as cash on delivery, debit card, or net banking. "With our best in class technology solution in the market, market leading channel partners, & our vision of delighting customer, Currency Exchange will go in to record books very soon" claims the company CEO Mr Amit Dange.

This app is available on Android Play store only and will become available on Apple Store soon. You can search using key words like Deltin or Currency Exchange on Android Play Store.
